Analyst

Business Analyst with 3+ years of experience in requirements gathering, stakeholder management, functional documentation, and translating business needs into system development specifications. Experienced in preparing BRDs, FRDs, SRS, functional flows, acceptance criteria, requirement traceability, UAT support, SQL-based analysis, and collaborating with cross-functional teams in Agile environments and documentation management using Jira and SharePoint.

SKILLS

Business Analysis	Requirements Analysis, BRD, FRD, SRS, ERD, Requirements Traceability, Functional Flows, Acceptance Criteria, Gap Analysis, Change Requests, Wireframing
Stakeholder & Collaboration	Stakeholder Communication, Requirement Walkthroughs, Cross-Functional Collaboration, Onshore/Offshore Coordination
Data & Business Logic	Data Mapping, SQL, Data Validation, Data Integrity Checks, Backend Data Validation, ETL/SQL Validation
Reporting, BI & Insights	Power BI, Dashboard Validation, Report Validation, KPI & Business Reporting, DAX Formula Testing, Comparative Analysis
Methodologies & Processes	Agile, Scrum, SDLC, STLC, Scope Management, Traceability to Requirements
Tools & Platforms	Jira, Power BI, Tableau, SharePoint, Confluence, ATE, AQT, Microsoft Excel

EXPERIENCE

Wipro HR Services Pvt. Ltd Analyst	Jan 2023 — Jan 2024 Noida, Uttar Pradesh
---	---

- Led requirements analysis for benefits, interfaces, and reporting modules, improving clarity and reducing UAT defects.
- Conducted requirement walkthroughs with onshore stakeholders and created high-level functional flows, ERDs, and process diagrams using Draw.io to validate business rules, solution workflows, and acceptance criteria for retirement benefits modules.
- Authored BRDs and FRDs, maintained requirements traceability, and collaborated with QA teams to ensure functional requirements were accurately mapped to test cases and UAT scenarios.
- Performed pre-UAT functional validation, supported UAT execution, validated business workflows, and assisted stakeholders in verifying implemented functionality.
- Performed SQL-based data analysis and validation across UI, interfaces, and reporting layers.
- Authored and maintained centralized business and functional documentation in SharePoint, reducing retrieval time by ~40–50%.
- Mentored junior team members and collaborated with cross-functional and onshore teams to resolve high-priority defects, improving overall release quality and timelines.
- Supported production release and post-release validation to help maintain system stability.

Wipro HR Services Pvt. Ltd Associate Analyst	Nov 2021 — Jan 2023 Noida, Uttar Pradesh
---	---

- Designed and executed test cases for functional, regression, and integration testing, improving early-cycle defect detection.
- Reviewed functional requirements and business rules to create test scenarios aligned with expected system behavior.
- Executed report and dashboard validation, improving reporting accuracy for business and client stakeholders.
- Logged, tracked, and prioritized defects in Jira, improving defect turnaround time and QA–development collaboration.
- Supported UAT cycles by assisting onshore teams and validating fixes, enabling faster UAT sign-offs.
- Participated in Agile sprint cycles, supporting on-time test execution and improved release readiness.

Wipro HR Services Pvt. Ltd Setup Configuration Specialist	Jun 2021 — Nov 2021 Noida, Uttar Pradesh
--	---

- Performed functional and GUI testing during client-specific system configuration, reducing configuration-related rework.
- Validated system configurations and business rules, reducing setup-related defects in downstream QA cycles.
- Executed test cases and documented results, supporting consistent QA execution for benefits and enrollment modules.
- Verified error handling and application behavior after configuration changes, preventing configuration-related issues.
- Identified and reported configuration-related defects, improving overall setup quality.

CAREER DEVELOPMENT & UPSKILLING (Jan 2024 – Present)

Career development period focused on advanced upskilling in data analysis and business intelligence tools. Completed hands-on practice in SQL optimization, Power BI dashboarding, and analytics workflows. Now actively seeking full-time opportunities.

EDUCATION

Bachelor of Technology (CSE), B.K. Birla Institute of Engineering & Technology, Pilani	Aug 2017 - Jul 2021
