Analyst

QA Analyst with 3+ years of experience in manual testing, requirements analysis, and end-to-end test lifecycle management within enterprise environments. Strong expertise in functional, regression, integration, and UAT testing. Proven ability to create and execute test cases, manage defects in Jira, and collaborate with business and development teams to ensure high-quality releases. Experienced in SQL-based data validation and dashboard testing.

SKILLS

Testing Types	Manual Testing, Functional Testing, Regression Testing, UAT, Smoke & Sanity Testing, Integration Testing
Test Management & Defects	Test Case Design, Test Scenario Creation, Test Planning, Test Execution, Defect Tracking, Bug Life Cycle, Defect Root Cause Analysis
Data & Backend Validation	SQL Testing, Data Validation, Data Integrity Checks, Backend Data Validation, Test Data Management, ETL/SQL Validation
BI & Reporting Validation	Power BI Dashboard Validation, DAX Formula Testing, Report Validation, Data Reconciliation
Methodologies & Processes	Agile, Scrum, SDLC, STLC, Requirements Analysis, Traceability to Requirements
Tools & Platforms	Jira, Power BI, Tableau, SharePoint, Catalyst, Conversation (GUI Config Tool), ATE, AQT, Microsoft Excel

EXPERIENCE

Wipro HR Services Pvt. Ltd	Jan 2023 — Jan 2024
Analyst	Noida, Uttar Pradesh

- Led requirements analysis and test planning for benefits, interfaces, and reporting modules, increasing test coverage by ~25% and reducing late-stage UAT defects.
- Developed and presented detailed test plans to onshore stakeholders, improving scope clarity and reducing rework during release cycles.
- Executed end-to-end functional, regression, and UAT testing, contributing to ~20% reduction in post-release defects.
- Performed SQL-based backend validation across UI, interfaces, and reporting layers, improving data accuracy to ~99%+.
- Validated business-critical reports and dashboards, reducing data reconciliation issues and improving stakeholder confidence.
- Created and maintained QA documentation and test artifacts in SharePoint, reducing retrieval time by ~40–50%.
- Mentored junior team members and collaborated with cross-functional and onshore teams to resolve high-priority defects, improving overall release quality and timelines.
- Supported production release and post-release validation to help maintain system stability.

Wipro HR Services Pvt. Ltd	Nov 2021 — Jan 2023
Associate Analyst	Noida, Uttar Pradesh

- Designed and executed manual test cases for functional, regression, and integration testing, improving early-cycle defect detection.
- Supported interface testing to validate data flow across upstream and downstream systems, reducing integration-related production issues.
- Performed SQL-based data validation to identify inconsistencies between UI, interface outputs, and backend data sources.
- Executed report and dashboard validation, improving reporting accuracy for business and client stakeholders.
- Logged, tracked, and prioritized defects in Jira, improving defect turnaround time and QA–development collaboration.
- Supported UAT cycles by assisting business users and validating fixes, enabling faster UAT sign-offs.
- Participated in Agile sprint cycles, supporting on-time test execution and improved release readiness.

Wipro HR Services Pvt. Ltd	Jun 2021 — Nov 2021
Setup Configuration Specialist	Noida, Uttar Pradesh

- Performed functional and GUI testing during client-specific system configuration, reducing configuration-related rework.
- Validated system configurations and business rules, reducing setup-related defects in downstream QA cycles.
- Executed test cases and documented results, supporting consistent QA execution for benefits and enrollment modules.
- Verified error handling and application behavior after configuration changes, preventing configuration-related issues.
- Supported regression testing activities, contributing to stable early-phase releases.
- Identified and reported configuration-related defects, improving overall setup quality.

CAREER DEVELOPMENT & UPSKILLING (Jan 2024 – Present)

Career development period focused on advanced upskilling in data analysis, business intelligence tools, and business process frameworks. Completed hands-on practice in SQL optimization, Power BI dashboarding, and analytics workflows. Now actively seeking full-time opportunities.

EDUCATION

Bachelor of Technology (CSE), B.K. Birla Institute of Engineering & Technology, Pilani	Aug 2017 - Jul 2021
